

Sprint One

- **Attendance: (4/4)**

- Josh Lewis
- Kaitlin Anderson
- Han Chen
- Jeremy Warden

- **Location**

- Engineering Building West, Room 239.
 - Columbia Missouri, 65201

- **Divide and Conquer**

- Database / UI
 - Jeremy Warden
 - Kaitlin Anderson
- Documentation / Security Testing
 - Han Chen
 - Josh Lewis

- **What we discussed:**

With only having four group members, we have decided to divide the work-load in a manner that makes more sense. During each sprint, we will be assigning smaller teams to still keep the collaborative environment, but be able to focus on a smaller piece of the project and complete it with a higher level of accuracy and detail. We will be combining our work using a Version Control System (Git Hub). Wish us luck.
